

Disaster Relief

The Disaster Case Management program assists survivors in creating a recovery plan while reconnecting them with available resources for an achievable and successful recovery, while following COVID-19 guidelines outlined by state and local authorities.

What we do:

- Help families return to safe, sanitary, and secure housing.
- Assist in providing financial assistance related to the recovery plan. The Disaster Case Management Program helps survivors come up with a recovery plan and connects them with available resources to be successful.
- Assist survivors with identifying and verifying the household's disaster recovery plan.
- Advocate for the family when necessary, to obtain services from available resources.

How We Can Help: Contact Us Today!

- Access available resources:
 - Food Assistance
